This worksheet helps us match your roller with the proper chiller or temperature control unit.

Roll Information

- Single Shell Double Shell
- Double Rotary Joint Single Rotary Joint
- Roll Diameter _____ Length _____
- Percent Wrap on Each Roll _____

Temperature Control Usage

- Heat/Cool Heat Only Cool Only

Required Rollface Temperature: _____

Material Temperature to Roll

Material Temperature from Roll

Voltage Required

Start-Up Time

Material Information

Type _____ Specific Heat of Material _____

Thickness _____ Width _____ Speed _____

Pounds of Material per Hour _____

Current BTU Requirement (If Known) _____

Process Description: _____
