

# Protective Roller Covers

*The Only Industrial Roller Source You'll Ever Need*

Menges Roller is a leader in the roller industry because we are committed to every aspect of roller performance. To protect the integrity & surface finish of your critical rollers, Menges offers padded protective roller covers.

Our roller covers are like a custom-fit blanket for your roller. Maintaining a pristine rollface is important because even small scratches will replicate in your product as blemishes.

Menges Roller Covers are Perfect for Any High-Value Roller:

- To protect chrome and critical surfaces from damage
- Protects roll during crating, shipping, storage & installation
- Buffer against contact with forklifts, cranes & machines
- Custom-made to fit your roll's exact dimensions.
- Available in two varieties:

**Standard Cover:** custom fit, offering basic scratch protection with one layer of padding, and Velcro® fastening

**Ultima Cover:** custom fit, two-layer padding offers great scratch protection & cushion from substantial bumps, plus over-lapped edge protection, and Velcro® fastening

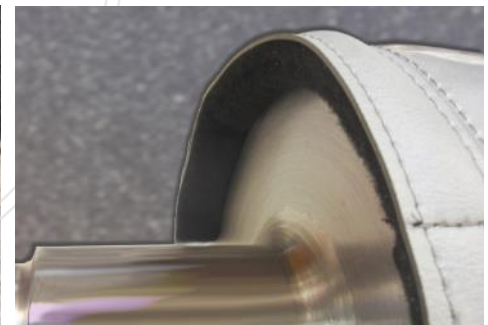

A chrome-plated chill roll is a big investment, worth protecting with a Roller Cover from Menges. This chill roll will keep its cover in place during crating, shipping and even during final installation. Notice the pocket for holding important paperwork.

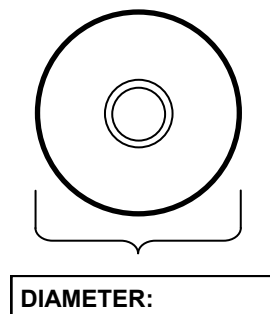

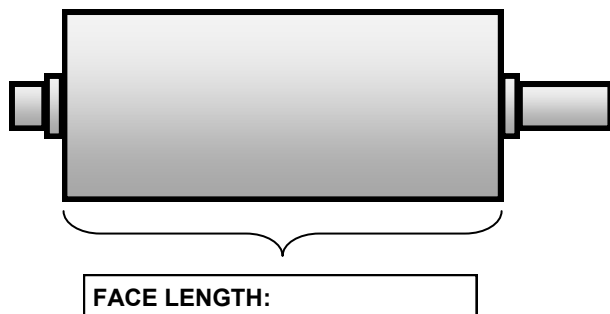

**Standard Roller Cover:**  
This rubberized synthetic material protects against dust, small particles & small shocks.

**The Ultima Roller Cover:**  
Our Ultima Cover uses the Standard Cover as a shell, then has an extra layer of thick fabric-like padding on the interior, plus special edge protection. This is your best buy.

**Extra Protection at the Edges:**  
This is your best buy.

**For Roller Cover Quotes, Please Fill In:**

- Face Length
- Diameter
- Ultima or Standard Choice
